

Queens' College JCR
Freshers' Week Programme 2019

Freshers' Week is designed to help new undergraduates settle into College and academic life. Our programme combines talks and meetings with Fellows, Staff, and students that will introduce you to important information about living and studying here, along with plenty of social events which you can choose to take part in.

We have included details of both, activities you are expected to attend and others you can opt into. To help find your way through the many possibilities, we have marked events that you are expected to attend with an *asterisk*.

The events in bold are official fresher's week events organised by Queens' College. Those not in bold are the student led activities during fresher's week, organised by the JCR.

If you are unsure about anything, please ask a JCR member, consult the College website or see the Freshers' Noticeboard outside the Buttery.

(Breakfast will be served on all weekdays in the Buttery from 08.15 – 09.30)
